I achieved a score of 1970. Now I have a combined best score of 2030! Please feel free to use this as a testimonial for your great program!" - Roseville High School student Caroline Doza

"With all the extra-curricular activities the kids have I found this a great way to "schedule" study time in the most effective way possible. Brie's scores went up 200 points after taking the test the first time and I am have been very impressed with the dedication of the instructors. I can not understate the value of this class. Admission to college is getting more competitive than ever and your class is a very small investment to help insure getting into a great school." - Bella Vista parent Tamara Bruns
